

Discussion List Report ARLIS/ANZ AGM October 2008

Discussion List membership has risen from 177 to 198 members since the last AGM in 2006, a rise of 11.86% and a rise of 17% since 2004. Discussion posts ranged from 29 in April 2008 to 11 in September 2007.

In July 2008, the Discussion List was transferred to be hosted with the website in Queensland. Technical problems, however, have not been resolved and the new software has not worked.

Other avenues for hosting the Discussion List must be explored as a priority.
